4th April 2022

Dear Parents and Carers,

I am writing to you today with an exciting update that will support your child in maximising their learning as they progress to Year 4 in September.

As you may be aware, we introduced 1:1 devices for every child in Year 4 at our school as part of our digital learning strategy and commitment to ensuring our students can unlock their academic and personal potential by transforming the way our teachers teach and our students learn.

Students are at the heart of every decision we make and we are extremely pleased with the impact and success of the programme. We are delighted to be able to share that your child will receive a free iPad when they are in Year 4.

Making iPads available free for all Year 4 to 6 students

As this has proven to be such an effective way of maximising learning and progress, we are making iPads available free for students in Years 4 to 6 as the rollout continues.

This means that your child will get their own personal device to use during the school day and at home throughout Years 4 to 6 at our school. We will share further details with you in the summer term.

We strongly believe digital learning has been central in providing students with the best experiences to maximise their learning and progress. We are delighted to take the next steps to ensure the programme continues to be a fundamental part of each student's development.

We look forward to maximising your child's progress through 1:1 devices and continuing to help them unlock their academic and personal potential.

Yours sincerely

Dominic Simpson
Headteacher
